

# Together, We Can Make This a Healthy and Safe Global Finals.

Here are three everyday actions that can really help:

1

Cover your nose and mouth with a tissue when you cough or sneeze. And make sure the used tissue makes it into a trashcan!

2

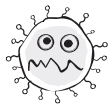

Wash your hands often with soap and water, especially after you cough or sneeze. Saying your ABCs while washing your hands will ensure you spend the proper amount of time scrubbing! Alcohol-based hands cleaners are also effective, so make sure to use the bottle you received at registration.

3

Avoid touching your eyes, nose or mouth. Germs spread that way.
